PRODUCTINFORMATION

High Performance Grinding Wheels

Corundum Grinding Wheels:

- High quality corundum grinding wheels for extraordinary results
- High durability
- For use on all established grinding machines
- Inner diameter: 12 / 20 / 22 (22,2) or 25 mm

DIMESIONS	APPLICATION	TYPE OF CHAIN
150 x 3,2 x 12 / 20 / 22 / 25 mm	Grinding the tooth	1/4“P, 1/4“, .325“, 3/8“P
150 x 3,8 x 12 / 20 / 22 / 25 mm		3/8“ (Chipper Chains)
150 x 4,5 x 12 / 20 / 22 / 25 mm		.404“ (Chainsaw & Harvester)
120 x 7,0 x 12 mm	Grinding the depth gauge	
150 x 6,0 x 12 / 20 / 22 / 25 mm	Grinding the tooth	3/4“, 15 & 20 mm (sawmill chain)

Borazon Grinding Wheels:

- For sharpening all standard chainsaw chains (chainsaw- and harvesterchains)
- Metal-body -- Constant peripheral speed
- Little formation of dust
- 150 x 4,0 x 12 / 20 / 22 / 25 mm

Diamond Grinding Wheels:

- For sharpening all carbide-tipped chains
- Metal-body -- Constant peripheral speed
- Available in two thicknesses

DIMENSIONS	TYPE OF CHAIN
145 x 3,2 x 12 / 22,2 mm	STIHL Picco Duro chain
145 x 4,0 x 12 / 22,2 mm	Sawmill chains

Dressing stones:

- Dimensions: 100 x 25 x 13 mm
- Two versions: for corundum grinding wheels
  and for Borazon- / Diamond grinding wheels
