

Corundum Grinding Wheels:

- high quality corundum grinding wheels for extraordinary results
- high durability
- for use on all established grinding machines
- inner diameter: 12 / 20 / 22 (22,23) or 25 mm

DIMENSIONS [mm]	APPLICATION	TYPE OF CHAIN
150 x 3,2	Grinding the tooth	1/4"P, 1/4", .325", 3/8"P
150 x 3,8		3/8" (chipper chains)
150 x 4,5		.404" (chainsaw & harvester)
120 x 7,0	Grinding the depth gauge	
150 x 6,0	Grinding the tooth	3/4", 15 & 20 mm (sawmill chains)

Diamond grinding wheels

- for sharpening all carbide-tipped chains
- metal-body -- Constant peripheral speed
- available in two thicknesses

DIMENSIONS [mm]	TYPE OF CHAIN
145 x 3,2 x 12 / 22,2	STIHL Picco Duro chain
145 x 4,0 x 12 / 22,2	Sawmill chains
145 x 2-7 x 12	Mafell ZSX // Carbide tipped satcher chains

Dressing Stones

- dimensions: 100 x 25 x 13 mm

for corundum grinding wheels

for Diamond grinding wheels

3M Cubitron II grinding belts for BS 1000 / BS 100:

- low wear due to high toughness and mineral hardness
- cool grinding and minimisation of discolouration
- 50+ grit (e.g. for lawnmower blades/deburring)
- 80+ grit (e.g. for hedgetrimmer blades)
- dimensions: 100 x 2500 mm

Grinding pot for bladesharpener F33"

- dimensions: 200 x 80 x 76 mm
